DETAILED ACTION

1. Claims 1, 2, 4-16 are presented for examination.

Response to Arguments

2. Applicant's arguments filed 03/03/2005 have been fully considered but they are not persuasive.

3. In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, the combination of Peace and McKay would have been obvious to a person of ordinary in the art because in doing so would enable to inform listening stations that congested condition has been resolved and it is now permissible to resume reservation attempts [McKay, col 4, lines 42-45].

Allowable Subject Matter

Art Unit: 2154

4. Claims 5, 6, objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1, 2, 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peace [US Patent No 6,687,260], in view of McKay et al. [US Patent No 5,844,905].

7. As per claim 1, Peace discloses the invention substantially as claimed including a method of transferring one or more data files to a computer system comprising:

determining whether a clear-to-send flag associated with the computer system is asserted [Abstract, lines 7-13]; and

transferring a data file to the computer system if the clear-to-send flag is asserted [col 2, lines 36-37].

Peace does not specifically disclose
receiving a receipt acknowledgement from the computer system indicating that the computer system received the data file; and

Art Unit: 2154

reasserting the clear-to-send flag in response to receiving the receipt acknowledgement.

McKay discloses

receiving a receipt acknowledgement from the computer system indicating that the computer system received the data file [Figure 1; and col 2, lines 38-44]; and

reasserting the clear-to-send flag in response to receiving the receipt acknowledgement [i.e. FTS indicators] [col 4, lines 41-48].

It would have been obvious to a person skill in the art at the time the invention was made to combine the teaching of Peace and McKay because McKay's teaching of acknowledgement would allow adding the confirmation technique to data transmission to the system of Peace to maintain data integrity.

8. As per claim 2, Peace discloses negating the clear-to-send flag after transferring the data file [col 8, lines 7-9].

9. As per claim 4, Peace discloses invoking the determining, and transferring steps in response to reasserting the clear-to-send flag [i.e. continue] [Abstract].

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2154

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
